

SharpNode

Control. Automate. Secure

SharpNode lets you easily monitor, secure your home or office and provide control over electric appliances through smartphone from anywhere in the world.

Make Life Easier | Make Life Smarter

SAVE TIME. SAVE ENERGY. DELIVER HAPPINESS

TRANSFORM YOUR HOME/OFFICE INTO SMART CONNECTED HOME/OFFICE.

Complete control without wire

SharpNode uses your home's wireless network, to give you complete control over switches and appliances. All the control, without any hassles, without any wires, without any changes in Switchboard. Either use app or physical switches, choice is yours.

Personalized Dashboard

Interact with device through smartphone or any web enabled device installed web app, android app or iPhone app. Personalized dashboard on app gives you all insight information regarding device. Device also work locally when Internet goes down.

Safety Features

Safety come with SharpNode, we made sure that neither the product nor the home/office is affected by the hazards electricity brings with it. Over voltage protection. Surge voltage protection. No EMI & EMC problem.

Easy Setup | Service at Your Door

We pair & install SharpNode with your existing switchboard. As easy it is for SharpNode to fit in, it is that much easy to remove, we are always at your door to help you.
